

Tring Town Council Information Security Policy

Statement of Intent

The purpose of the policy is to ensure that confidentiality, integrity and availability of information is maintained by implementing best practice to minimise risk.

Information exists in many forms including:

- printed or written on paper
- stored electronically
- published on the internet
- transmitted by post or electronically

Information Security requires the adherence to both the Record Management and the Data Protection policies of the Council.

Information Security is primarily vested in the staff employed in the Clerk's Office and Information Centre. However, individual councillors are also required to meet the objectives of these policies as well as those contained within the Standing Orders and Code of Conduct.

Where sensitive information is provided, all recipients are expected to respect the nature of such information and afford it the appropriate level of security. Such security will include the prevention of access by unauthorised personnel.

Nothing within this policy, or those for Record Management and Data Protection, will detract from the basic principles of the Freedom of Information Act.

This policy will be reviewed every four years or earlier if so required by legislation or additional material.

Approved by Finance and Policy Committee on 31st October 2016

Review Date: 2020
